

MOSSHEALTHSKILLS

Course: Clinical supervision

Reference Number: 3100

A programme either for reigniting Clinical Supervision in organisations or for the refreshment of knowledge and skills in those already engaged in supervisory relationships.

This one day interactive workshop builds on practitioner experience yet is set within academic theoretical and practical frameworks espoused by Bond M & Holland S (2010), Cassedy P (2010), Driscoll, J (2007) and Lyth G (2000). Events can incorporate your organisations policy for Clinical Supervision

Content:

- History, background and definitions
- Supervisors, contracts, rights and responsibilities
- Methods and models
- Reflective practice, supervisory skills and time to practise
- Evaluation of clinical supervision and Self management as a supervisor
